Exam Room : _____

Duration: 45 minutes

June 2022

PART I

You are going to read 3 different texts. For questions 1 - 18, choose from (A, B, C or D) which you think the right choice according to the texts. Mark your answers on the separate answer sheet.

(12x1,5=18pts.)

TEXT 1: Television

Everyone loves television, or do they? As channels increase and programs multiply like rabbits, it seems that more and more people are turning off their televisions because they “would rather be out doing something.” The reason for this mass turn-off seems to be the quality – or lack of quality – of the programming. Many people complain that most television programs are boring, tediously violent or just plain silly. Even those who have cable television, which gives access to 200 channels or more, are becoming **disillusioned**, or not satisfied with what is on offer. Any alternative, it would seem, is better than being subjected to non-stop pop music and endless advertising. Sitting through some of those shows provides about as much entertainment as watching paint dry. One of the problems with TV watching is that it is completely sedentary. How long can anyone sit in front of the tube without moving? Today’s “body-beautiful” culture is another influencing factor. Who can afford to sit vegetating on the couch while their body-conscious friends are working on their muscles in the gym, jogging or having a game of tennis with their colleagues? Maybe the couch potato is a dying breed after all.

1. Which one of the following is NOT MENTIONED in the text?

- A) TV is becoming less and less popular. C) TV is increasingly violent.
B) TV has more and more channels. D) TV has created family problems recently.

2. It seems that many people _____.

- A) would rather do anything than watch TV C) prefer TV to sport and other activities
B) would rather watch TV than do anything else D) like to watch TV all day

3. It can be inferred from the passage that in general people today _____.

- A) spend time watching the music channels only C) are conscious of physical appearance
B) base their lives entirely on television D) are rather passive

4. From your reading of the passage, which of these statements about TV is NOT true?

- A) Some programs are violent. C) There is a lot of pop music on TV.
B) Programs are slightly better than before. D) Many people are bored by TV.

5. What does "disillusioned" in line 6 mean?

- A) distasteful B) discreet C) disapproved D) disappointed

6. The main idea in the text is that _____.

- A) people should stop watching TV
B) doing exercise makes people happier than watching TV
C) TV's popularity is declining
D) body-conscious people do exercise just to become healthier

TEXT 2: Tetris

Do you like video games? Lots of people do. There are many types of video games. Some people like action games. Other people like driving games. But the most popular game of all time is a puzzle game.

Tetris is a game about making lines. Blocks fall from the top of the screen. They fall one at a time. The player moves the blocks. Once the blocks hit the bottom, they are locked in place. Players try to make lines go across the screen with no gaps. Complete lines disappear. This gives players more room. The blocks pile up during the game. The game ends when the blocks get to the top of the screen.

A man named Alexey made Tetris in 1984. All the pieces in Tetris have four blocks. The word "tetra" means four. Alexey named his game after tetra and tennis. He made Tetris while working at a science academy in Moscow. Moscow is in Russia. Alexey made his game on a screen that only showed letters. He could not use blocks. The blocks were made out of letters in the first game of Tetris. Still, all Alexey's friends loved his game. It was easy to learn and fun to play.

Soon the game spread across the world. It was on every computer. It was in arcades. It came with every one of Nintendo's Game Boy. More than 100 million Game Boys were sold. Tetris was all over the place. Even today, tetris comes with many phones. Dr. Richard Haier has studied Tetris players. He ran many tests. He found that playing Tetris boosts mental activity. Dr. Haier thinks Tetris is good for the brain. I agree with this finding. Now go and play some Tetris. It's just what the doctor ordered.

7. What is the goal of Tetris?

- A) To make tall piles of blocks
- B) To match the colours of blocks
- C) To make complete lines
- D) To get blocks to the top of the screen

8. Which event happened first?

- A) Tetris was played with letters instead of blocks
- B) Tetris was released on the phone
- C) Tetris was released in the arcade
- D) Tetris was brought to the Game Boy

9. What is the main idea of the second paragraph?

- A) To persuade readers to play Tetris
- B) To explain how Tetris is played
- C) To describe different types of games
- D) To compare Tetris to other puzzle games

10. According to Dr. Richard Haier, which is true about Tetris?

- A) Tetris lowers blood pressure
- B) Tetris increases physical strength
- C) Tetris has no positive side effects
- D) Tetris enhances brain activity

11. What happens to a block that hits the bottom and does not form a complete line in Tetris?

- A) It disappears and reappears at the top.
- B) It gives the player more room.
- C) The player moves the block.
- D) It is locked in place.

12. Why did the first game of Tetris use letters instead of blocks?

- A) Alexey did not think to use blocks
- B) Alexey thought letters were more fun
- C) Alexey's screen could only show letters
- D) Alexey wanted to teach people to read

PART II

You are going to read a text. For questions 19 - 25, mark the statements as TRUE (T) or FALSE (F) which you think the right choice according to the text. Mark your answers on the separate answer sheet. (7x1=7 pts)

Text 3: Emigration

From the earliest times people have moved from their home to find a new home elsewhere. This movement of people is called emigration. Sometimes wars forced people to emigrate or they emigrated because of religious or political beliefs. For example, in the 20th century many thousands of people from central Europe escaped from their home country because of the Nazis. When new lands were discovered, like the American continent, followed by South Africa, Australia and New Zealand, thousands of people emigrated from older areas. They did so because they could no longer make a good living in their own countries or because they wanted better opportunities, or for love of adventure.

In today's world there is still emigration. Canada mostly needs nurses and school teachers. Australia still needs thousands of skilled and unskilled workers. Although wages are good here, living conditions can be hard, primitive and lonely for the immigrants. There are wide possibilities for emigration, but Commonwealth countries wish to select the people who come in to them. For instance, they generally prefer Europeans to Asians. And if somebody is planning to emigrate, they should make full investigation about the land, the government, the climate, the language and the living and working conditions of the country before they leave their home.

- | | | |
|---|------|------|
| 13. Before somebody abandons their home, they should gather some information about the place they will go to. | A) T | B) F |
| 14. Asian people easily find jobs in Commonwealth countries. | A) T | B) F |
| 15. Canada needs people with a profession. | A) T | B) F |
| 16. Australia already has many emigrants. | A) T | B) F |
| 17. In Canada living conditions are difficult, simple and solitary. | A) T | B) F |

PARAGRAPH I

Students should live in a dorm for three important reasons. First of all, living on campus is very convenient. It is easy to visit the library to do research, and it takes only minutes to get to class.

Second, being in dorm is fun. (1) _____

_____.

PARAGRAPH II

(3) _____.

Second, clubs make students feel closer to their school community. Club members often work with teachers, and clubs have many beneficial events for the school. For example, (4) _____

_____.

PARAGRAPH III

For people who would like to act in the theater, there are several important rules to remember. One rule is to make sure you face your audience when you are on stage. If you turn away from the audience, they cannot see your facial expressions. The next rule is that (5) _____
_____. If your audience has difficulty hearing you, they will quickly lose interest. Another important point is to memorize your lines. Rehearse them often- on the train, in the mirror, or while you are walking to class- so that you remember them. Perhaps the most important rule of all is to remain calm on the stage if you forget your lines. Don't panic and stop speaking because the audience will notice. Instead, make up something to say until you remember your next line. As long as you continue speaking and appear relaxed, the audience will probably not realize that you have made a mistake. (6)

PARAGRAPH IV

The average American family is changing. There are fewer children today than in the past because many couples are choosing to have small families. There are two main reasons for this.

PARAGRAPH V

Is it difficult for you to manage your money? Here's some advice that can help you. Firstly, don't spend money that you don't have. If you want to buy something, save the money and pay in cash. Never use credit cards. Second, don't eat your money. That is, do not go out to restaurants, and do not eat take-out food. Cook and eat at home. Finally, **(9)** _____
